Enchanting leveling guide wowhead

This fascinating leveling guide shows you the fastest and easiest way to level up your enchanting skills from 1 to 800. For Legion Patch 7.0.3 update you will spend a lot of money on this profession if you want to buy all the materials from the auction house. It depends on the region economy, but it can cost thousands of gold. Enchanting goes well with tailoring because it doesn't require a profession to get together to support any of these. Leveling tailors and enchanters at the same time can make most cloths. If you have less gold, it's a good idea to give this Gold Making Guide a try, it will help you make loads of gold. If you're leveling your character, or if you're just starting a new alt, it's a good idea to use the leveling guide. In this guide, you can level your character to level 110 in 7 days. You need to get the Drainoa Enchanted scroll to upgrade your maximum enchanting skills to the 700. This scroll will also tell you some basic recipes that you will use for enchanting levels. There are three ways to get this scroll: the work order for the work order converts 5 x [Draenic Dust] to 2 x [Fracture Temporal Crystal] and is 4 if you have followers in the building. If you read my guide to followers with professional characteristics, you can read more about followers. A work order takes four hours to complete, but you don't need to log in every four hours because you can line up in a line of work orders. All you need to know is that all recipes between 625-700 that you can use for a level require a Destroyed Head Crystal. You need to complete a job order and you also need to make a cooldown [temporal crystal] of your daily profession every day to get these crystals. The recipe learned from scrolling to get a new recipe is only good for leveling between 1-625. You will need to buy new recipes in Enchancers Study up to 700 levels. When you learn [Draynoa Enchanting], you will get the recipe [Secret of Draynoa Enchanting]. This is necessary to create a currency that can be used to buy new recipes, but only one is made from this currency every day. Leveling 600-700 600-613 13 x [Emission Shard] - 260 Drainic Dust Keep 12 Level these and use the following steps: Level 100 is required for this part. First, visit your enchanting trainer EnchanterNaltanis in Dalaran. Just walk to the city guards and you'll be able to ask for the location of the enchanting trainer. After you've learned enchanting, pick up some fascinating nights from the quest EnchanterNaltanis. Quest rewards are Region Enchanter. The most fascinating recipe to unlock recipes is unlocked by doing quests. These quests are given by one of the NPCs around the trainer. Before continuing with this guide, you need to reach level 110 and complete all the fascinating quests. There are 29 fascinating quests in total and they are pretty straight, so I don't write down all the quest details. Some of the quests will guide you into dungeons, but if you start them at 110, you can easily finish all quests in a few hours, otherwise you will have to wait because later quests have level requirements. The last quest goes down to the core and the reward is 4 enchanted that you use between 760 and 800. Recipe Rank Most Legion Recipes currently have 3 ranks. With higher ranked recipes, you can make items for less material. Therefore, you should use a Rank 3 recipe only when possible. Rank 3 recipes come from different sources like vendors, world quests, reputations, dungeon drops, and even rated battlefield wins. Hover your mouse over a small star in your spellbook to see the source of the next rank of the selected recipe. Some of the unlocked World Quest Rank 3 recipes come from World Quests. To get these quests, you must first complete the unification of the island by reaching a friendly reputation with all Legion factions. You can get this quest from AsageKadgar (level 110 required). After unlocking quests, you must level your fascination to at least 100 to unlock the world quests of the profession. 700 - 740 There are four enchantments you can make: 40 x [Rank 3 - Critical Strike Words] - 400 x [Arcana] 40 x [Rank 3 - Sudden Words] - 400 x [Arcana] 40 x [Rank 3 - Master Words] - 400 x [Arcana] 40 x [Rank 3 - Words of Versatility] - 400 x [Arcana] - 400 x You can buy Rank 2 recipes from Yildin Sadness in Dalaran near your trainer. Three of the Rank 3 recipes come from World Quests, but the world quests you get are randomly generated, so you'll have to get one right away and wait a few days for one to pop up. If you are honored with Dream Weaver, you can get a [Formula: Enchanting - Words of Versatility - Rank 3] recipe from Sylvia Heartshorn. 740 - 780 Make 40 from these: 40x40x [Rank 3 - Join Critical Strikes] - 160x [Chaos Crystal], 1400 x40x [Rank 3 - Join in a hurry] - 160x Chaos Crystal, 1400 x [Arkhan] 40 x [Rank 3 - Mastery Join] - 160 x [Chaos Crystal], 1400 x [Arcana] 40 x [Rank 3 - Versatile Binding] - 160 x [Chaos Crystal], 1400 x [Arcana] You can buy Rank 2 recipes from Ildin Sadness Recipes at nearby Dalaran Trainer. Rank 3 Recipes: 780 - 800 You make the same recipe as the previous step, but all of them will be yellow between 780-790 and green between 790-800. That means you don't have to get all the craft skill points, so the number of recipes you need to craft will vary for everyone. You'll probably need to craft between 25-35, 25 x [One of the previous recipes] - 100 x [Chaos Crystal], 875 x [Arkhan] Dark Moon Fair Dark Moon Dark Moon You need to check your calendar in-game to see if the Dark Moon Fair is open, the event starts at 00:01 on Sunday before the first Monday of every month. You can earn +5 skill points by completing a single quest (use it in 795). Click here to learn more about quests I hope you liked this fascinating guide, congratulations on reaching the 800!
